Pet kittens are not sold with any breed rights. We will take your preferences into consideration, but cannot guarantee that a specific gender or color will be available from any given litter. If you are offered choice from one litter and none match your specifications you may choose to wait until a future litter is available. Feel free to ask about the 2011 breeding plans.

If your cat allergies are very severe, or if you have severe allergies to rabbits, horses, or egg white, I ask that you visit the cattery or test with fur prior to completing your Kitten Application. If you have a child in the family under age 15 years of age with cat allergies please call me before sending in a deposit.
